KEY HIGHLIGHTS

- Career Progression:** Advanced through three progressive roles — Executive to Assistant Manager — IT — at Stencil Bangladesh Ltd. (Asiatic 360), across **7+ years** of enterprise IT leadership.
- Infrastructure & Virtualization:** Architected highly available Windows and Linux server estates on VMware/Hyper-V with Active Directory, Group Policy, DNS/DHCP, Synology NAS storage, and structured backup & disaster recovery.
- Enterprise Networking:** Designed and secured segmented LAN/WAN environments — VLANs, MikroTik RouterOS, Cisco switching, edge firewall policy — with redundant ISP leased lines, load balancing, and automatic failover.
- Cloud & Collaboration:** Administered Microsoft 365 and Google Workspace tenants — mailbox provisioning, custom routing groups, and access security — alongside corporate domain, DNS, hosting, and SSL certificate management.
- Business Systems & Automation:** Delivered tier-3 ERP and HRMS support, integrated ZKTeco biometric attendance and access control into HR workflows, and applied AI-driven automation to repetitive IT processes.
- Projects & Governance:** Led office relocations spanning structured cabling, fiber backbone, and server-room staging with minimal downtime, while owning IT budgets, vendor negotiation, AMCs, and licence compliance.

CORE SYSTEMS, HARDWARE & TECHNICAL SUPPORT

- **End-User Support:** Provided tier-3 on-site and remote technical support for complex workspace hardware, computer setups, and client profile faults.
- **OS & Software Support:** Installed, upgraded, and troubleshoot Windows, Linux, and macOS alongside enterprise software applications.
- **Peripherals Management:** Diagnosed and maintained network printing devices, heavy-duty laser/inkjet printers, scanners, and multi-office projector units.

DIRECTORY, CLOUD & COLLABORATION

- **Directory & File Sharing:** Administered Active Directory (AD), Group Policies (GPO), DNS/DHCP configurations, and maintained secure local file-sharing networks and NAS servers.
- **Cloud Administration:** Managed Google Workspace and Microsoft 365 environments — email provisioning, custom routing groups, and access security.

NETWORK & POWER INFRASTRUCTURE

- **Network Routing:** Configured and secured corporate LAN, WAN, VLAN segments, managed switches, routers, and edge firewall policies.
- **Power & UPS Planning:** Mapped and maintained power backup infrastructure — online UPS balancing, generator ties, and server-room climate grids.

SECURITY, SURVEILLANCE & ACCESS CONTROL

- **Endpoint Security:** Deployed centralized enterprise antivirus servers pushing automated real-time protection profiles across endpoints.
- **Web Security:** Oversaw corporate domains, hosting performance, SSL certificates, and email authentication (SPF, DKIM, DMARC).
- **CCTV Surveillance:** Installed and managed storage layouts for analog and high-definition IP CCTV camera systems (DVR/NVR structures).
- **Biometrics Integration:** Provisioned biometric attendance and access-control devices with secure data synchronisation into HRMS and ERP tools.
